DID YOU KNOW?

The Network for Professional and Executive Women was founded in 1981 because working women had no where to go to network and mingle with other professional females. At the time, ladies weren't even allowed to join civic organizations like Rotary or Kiwanis. Besides networking and fellowship opportunities, Network provides financial and volunteer support to selected charities and non-profit organizations.

PRESIDENT'S MESSAGE

Welcome to 2015! Hard to believe, isn't it? Please allow me to start by saying how honored I am to serve as President of Network . Even though I've only been with the organization for a few years, I can't begin to express how much I've learned and how enjoyable it has been. Thanks especially to past president Karen Smith for all of her support and guidance. Because of that, I'm even more confident we'll have an amazing 2015.

Please remember to encourage your peers to visit a meeting or two and consider membership. We represent women from all walks of life and we all bring special skills and talents but what we need to try to remember, like at any social or professional gathering, please leave the political and religious talk at home! :) We are here to empower and encourage women through education and support.

Don't forget to register for our January luncheon where we'll learn about the Top 10 Lessons in Leadership. Thanks and Happy New Year!
