From Our President

Karen Smith
Network President

Every week day I receive a leadership tip of the day. One tip I received says “The greatest waste in the world is the difference between what we are and what we are capable of becoming.”

We should all be striving to be what we are capable of becoming and not just be what we are. Every one of us is capable of more than we realize and just need to stretch a little to reach that potential and if we stretch together as a team there are endless possibilities. Look around and if you see something in

your company or community that you would like to see changed for the better, get together with others and develop a plan to see those changes put in place or a better alternative agreed upon. You never know what you can do unless you try.

Have you ever had someone say to you or hear someone say to another person “sorry about that” when they have made a mistake? Somehow that “apology” just does not sound sincere does it? When someone apologizes to you, ask them if the apology is also a

commitment to fix the problem. Also, ensure your apology is sincere as well and you have an action plan to ensure you do not make the same mistake in the future.

May is a busy month. There are Cinco de Mayo celebrations, the Kentucky Derby takes place, college and high school seniors are graduating, we pause to remember our fallen military members on Memorial Day, and we celebrate Mothers. I hope you all had a very Happy Mother’s Day.
